Cineplex Saves 30,000 Hours Annually with Microsoft Power Platform & Generative AI

Citizen developers built custom AI-powered solutions using Power Automate and Copilot Studio.
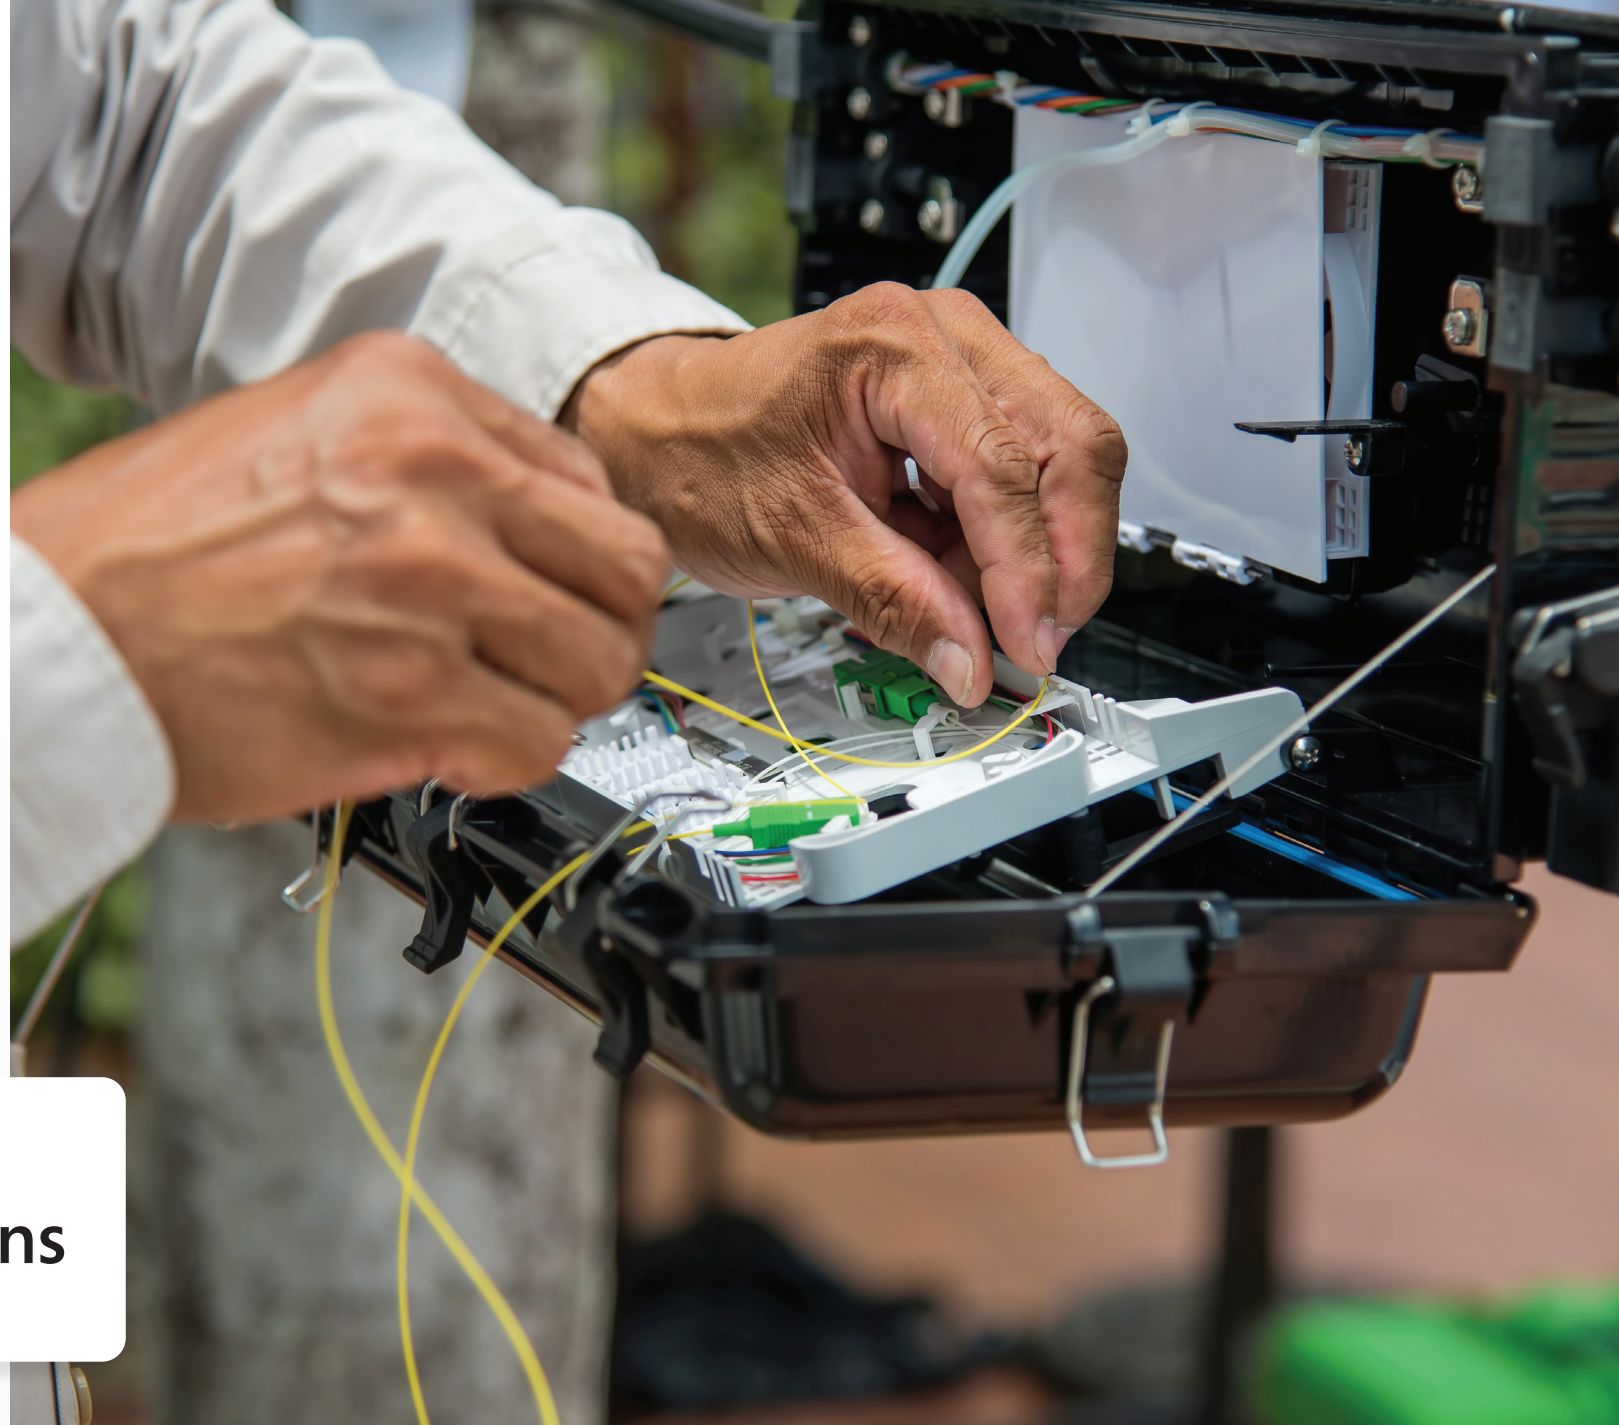

Automated key processes in finance, guest services, and more (e.g., ticket refunds, email inquiries).

Freed up **30,000+ hours** annually to focus on strategic initiatives.

> *Power Platform has been a key factor in our automation success. By empowering our citizen developers, we're able to better identify and prioritize use cases that are best for the business and free up that critical resource: time*

Gord Nelson, Chief Financial Officer, Cineplex

Community Fibre Reduces Business Process Times by **85%** with Power Automate

Rapidly automated core processes (lead reporting, billing, operations) with Power Automate.

Power Automate Process Mining identified key areas for improvement.

Centralized governance and ensured compliance with security standards, including GDPR.

Reduced business process handling times by 85%, saving **26,000+ hours.**

> *When you have automated as many processes as we have, managing the capacity is easy with the centralized infrastructure of Power Platform.*

Chris Williams, Chief Information Officer, Community Fibre

Memphis-Shelby County Schools Drives Educational Excellence with Power Platform

Developed **20+ Power Apps** to address specific needs (coaching tools, behavior intervention).

Streamlined processes and generated significant cost savings (**$300,000** from behavior app).

Empowered citizen developers to create tailored solutions, improving educational excellence.

" *None of us have a background in database engineering. We learned with the Power Apps community. These are the first apps built by citizen developers outside IT at MSCS.*

San Francisco Police Department Saves Hundreds of Officer Hours with Power Platform

Developed Power Apps solution (RESTVOS) to streamline recovered vehicle reporting.

Reduced reporting time from hours to minutes, saving **500+** officer hours monthly.

Improved public trust with timely and accurate information on recovered vehicles.

> *I've been really impressed with Power Apps. I'm hoping there is more to come to support the public in many important ways.*

William Sanson-Mosier, Chief Information Officer, San Francisco Police Department
